

Louisiana State University Health Sciences Center
Department of Molecular
and Cellular Physiology
2017 Spring Seminar Series

Seminars begin at 9:00 am in Room 4-201 (Physiology Conference Room)

January 11	Kevin Lin, Ph.D. Assistant Professor Department of Neurology LSU Health - Shreveport	Cerebral Circulation After Global Cerebral Ischemia
January 25	Hai Sun Assistant Professor Department of Neurosurgery LSU Health - Shreveport	The Surgical Treatment of Moyamoya Disease and Syndrome
February 8	Priya Prasai Graduate Assistant Department of Molecular & Cellular Physiology LSU Health - Shreveport	Glutathione Mediated Regulation of VEGFR2
February 22	TBA	
March 8	Sarah Daley, Ph.D.	Progression of Inflammatory Bowel Disease to Cancer: Is the Patient 'Better Off' Without Lymphatic Vessels or Nodes?
March 22	Adam Xiao Graduate Assistant Department of Molecular & Cellular Physiology LSU Health - Shreveport	The Use of Sodium Sulfide, a Hydrogen Sulfide Donor, to Sensitize Glioblastoma Multiforme to Photon and Proton Radiotherapy
April 5	John M. Tarbell, Ph.D. CUNY & Walter Coulter Distinguished Professor Director of New York Center for Biomedical Engineering City College of New York – New York	TBA
April 19	Andrew Weyrich, Ph.D. Professor of Medicine & Adjunct Professor in Pathology University of Utah – Salt Lake City	TBA
May 17	Junaid Ansari, Ph.D. Post Doctoral Fellow Department of Molecular & Cellular Physiology LSU Health - Shreveport	TBA
May 31	Israel Soto Graduate Assistant Department of Molecular & Cellular Physiology LSU Health - Shreveport	Cytomegalovirus Impact on the Microvasculature
